**Sub: APSEZL - Operational performance update**

Dear Sir,

We would like to inform about operational performance of Adani Ports and Special Economic Zone Limited ("APSEZ") as under:

**September 2022 – Q2 FY23 volumes see a strong 15% YoY increase**

1. In September 2022, APSEZ recorded 13% YoY growth in cargo volumes to reach 26.1 MMT. This volume jump is despite an extended monsoon which adversely impacted the coal demand/imports and the ban/higher duties on rice exports imposed at the beginning of the month.
2. In the initial six months of FY23, the Company managed 177.5 MMT of cargo, which is a good 11% increase over the corresponding period last year. The average monthly cargo run rate is well aligned within our annual guided range of 350 -360 MMT.
3. During 1HFY23, east coast volumes are up 13% YoY, supported by Krishnapatnam (+13%), Gangavaram (+9%) and Kattupalli & Ennore combined (+51%). The west coast volume jump of 10% is supported by Mundra (8%), Dahej (65%), Tuna (19%), and Goa (22%).

Kindly take the same on your record.

Thanking you,

Yours faithfully,

For **Adani Ports and Special Economic Zone Limited**
